Dementia Care

Specialist support from carers trained to work with memory loss, confusion and changing behaviour, with patience, not just procedure.

IS DEMENTIA CARE RIGHT FOR YOU?

- A diagnosis of dementia or Alzheimer's has changed what daily life looks like
- Confusion, wandering, or agitation are becoming harder to manage safely
- Routine and familiarity have become essential to keeping calm
- Family need support and guidance, not just extra hands

WHAT'S INCLUDED

- Dementia-trained care staff
- Memory prompts and cognitive engagement
- Routine and familiarity maintenance
- De-escalation and behavioural support
- Family guidance and support
