

Live-in Care

A dedicated carer living in your home, providing continuous support and companionship. The alternative to a care home that keeps you where you belong.

IS LIVE-IN CARE RIGHT FOR YOU?

- Care needs have become too complex or frequent for scheduled visits
- A move to a care home is being considered, but staying home is preferred
- Overnight support and supervision are needed, not just daytime visits
- Consistency of one dedicated carer matters more than a rotating team

WHAT'S INCLUDED

- 24-hour presence in your home
- Personal care, meals, and daily support
- Companionship and social engagement
- Overnight supervision and support
- Regular carer rotation for continuity and rest
